The Loch Inn Website Description

My website has all the required pages such as the home page name index, a page for facilities, corporate booking and a page for reservation.

Index page

All Pages

- Navigation bar has a logo (which take you to the homepage from all pages) and a button (which takes you to the reservation page). The logo, nav and button are all fixed.
- Navigation bar which turns to a hamburger menu when the screen is minimised

Index page

- Slideshow
- Map
- Contact form
- Hero text and button to a link to a page
- Submit button gives a pop-up message

Facilities

- Table with bullet points and images
- Hero image and hero text

Corporate booking page

- Hero image and hero text
- Form – calendar, email, number, required element and dropdown options
- Image and text
- Submit button gives a pop-up message

Reservation page

- Hero image and hero text
- Form – calendar, email, number, required element and dropdown options
- Image and text
- Table for pricing
- Submit button gives a pop-up message

Footer

- Copyright and last update
- Email (which open an email) and phone (which allow you to call the inn)
- Social media with links to a social page

My website had no validation error except for the error I for the forms which was the date input for the calendar saying 'the date input type is not supported in all browsers. Please be sure to test and consider using a polyfill.'
